

## Year 3 Homework Spring 1 January – February 2019

Your homework for **each week** is to:

- Read at least 3 times – this will earn 2 house points per week!
- Use your favourite strategies to really learn your weekly spellings
- Spend 30 minutes + on Mathletics (you can access IT at school for this if you are not able to do so at home)

Alongside these, the below are **optional** tasks which are linked to our learning this half term about ancient China and forces in Science.

### **Made in China**

Look at labels on things in your home – food, clothing, electronic items and plastics to see what was made in China. Make a chart or draw pictures of each item.

G – try to find 10+ items

S – try to find 7+ items

B – try to find 5+ items

### **China Facts**

Create an information poster about China. You can choose to write historical, geographical or cultural facts – it's completely up to you!

### **Chinese New Year**

Draw your Chinese New Year birth year animal and label its key characteristics.

### **Collect data**

Choose 4 or 5 modern Chinese dishes and use a tally chart to find out which is the most popular! Later in the term, you may want to show your results using a pictogram or bar graph.

### **Is it magnetic?**

Create a chart showing things that are magnetic and things that are not magnetic in your home.

G – 8+ of each

S – 5 + of each

B - 3 + of each

### **Push or pull?**

Look around your home or local environment (park, playground, sports field/centre, car) to find things that you push or pull to move.

Draw a chart showing things you move by pushing and things you move by pulling.

G – 8 + objects

S – 5 + objects

B – 3 + objects
