

## Quick Quills and Positive Potions!

During this half term, Year 5 will be learning about all things Harry Potter! We will be using the text 'Harry Potter and the Philosopher's Stone' in some of our Reading Masters sessions,

As part of our English lessons, we will be learning all about (and then writing our own!) newspaper reports. Ours will be reporting about a troll breaking into the infamous Hogwarts School of Witchcraft and Wizardry! We hope to show some examples of these fantastic articles in our fortnightly newsletter so watch this space!

As well as reporting this breaking news, the children will be: investigating reversible and irreversible changes, using their understanding of dissolving to help Harry with his unicorn crystals in Potions class and learning about irreversible changes so they can help Fred and George Weasley to create rockets to go off in the great hall to celebrate the end of the OWLs (Ordinary Wizing Levels!). Year 5 will also be able to use some of our new computing equipment to become directors and create their own trailers for Harry Potter!
