

YEAR FOUR

Persuasive Writing - Single-Use Plastic

Our topic, 'Water, Water, Everywhere' continues as we look at the subject of water pollution and the effect on marine life. The children are learning about the impact of plastic pollution and using this to help them write persuasively, encouraging others to stop using single-use plastic. The children have been researching facts to make their writing more powerful.

Times Table Rock Stars

Please encourage your child to practise their times tables and improve their pace. The children now have their log in details and can also use:

Google Slides

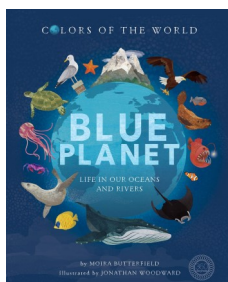

We have been using Google Slides to present information. The children have shared and produced some excellent examples.

Please encourage them to practise this skill at home. They can share their presentations on the Year 4 Classroom or directly with their teacher.

Reading in Year Four

Are you enjoying our new topic? Visit here: www.booksfortopics.com/water to find related books.

Google Classroom - Year 4

All lessons are now published on the Year 4 Google Classroom. In a case of self-isolation or a bubble closure this is where children will find their learning.

Please ensure your child has been able to access this from home and is familiar with their log in and password. We will be regularly linking school lessons to this form of learning to help them practise.

All information needed is in the red exercise book. This should remain at home.
