

# YEAR FOUR

## That's it!

One full term back at school in what has been a very unusual year.

*We are so incredibly proud of all of your children.*

Their resilience, thirst for learning and general loveliness have made teaching them and being around them an absolute pleasure! We love that we are back in school, doing what we love and getting to see how much your children are flourishing despite things being a little different now. They truly are wonderful!

*From all the staff in Year 4, we wish you and your families a most wonderful Christmas and a Happy New Year.*

*Here's to a (hopefully!) more normal 2021!*

## This Half Term

This half term our topic has been all about water and changes of states in science.

We learnt all about what makes something a solid, liquid or a gas and how certain materials can change between different states, conducted investigations around melting, learnt all about the water cycle and wrote some excellent poems about a river and some really great persuasive pieces of writing about single-use plastic and recycling!

We have had a great time!

## Coming Soon...

**Our next topic will be all about Ancient Egypt!**

## Christmas Jumper Day

We had a great time wearing our Christmas Jumpers last Friday and it coincided with our Christmas Decoration Afternoon in school!

The children made some wonderful decorations which we have used to decorate the classrooms until the end of term!
