

YEAR FIVE

Dereham
Church of England
Junior Academy

Trip to the Time and Tide Museum

At the end of last half term, we culminated our Topic: 'Let Battle Commence!' with a trip to celebrate and enhance our learning about the Vikings.

All of the children were able to take part in activities teaching them battle skills, designing Viking symbols, journeying into a new land and how to bury a warrior.

The children had lots of fun in taking part in the range of activities and were able to use their experience to write some super poems the following week about the burial of a chieftain!

NEW TOPIC:

This half-term we will be learning about: the solar system, the moon orbiting the Earth, the phases of the moon, changes in the human body, lifecycles of other animals and reproduction in animals and plants.

RE Week

This week we have been answering the question:

What difference does following the teachings of the Holy Book make to the religious community?

We visited a local Synagogue to explore answers and artefacts.

We loved it!
