

YEAR FIVE

NEW TOPIC: FOOD FOR THOUGHT

This half-term our learning will focus on food. We will learn about eating a balanced diet, try some healthy snacks, discover where food comes from, explain how farming has changed over time, persuade consumers to buy Fair Trade and dissect the reproduction parts of plants.

This week we used Pop Art to influence the design of a tile print.

World Book Day

A big thank you to all the parents that joined us to celebrate World Book Day. All the children looked fantastic and were able to share what book character they were dressed as.

We enjoyed reading an extract from *The Sheep-Pig* by Dick King-Smith. We then made pig shaped question askers and inserted our own questions and answers about the extract and pig facts! We also made a pig shaped book mark.

World Maths Day

To celebrate World Maths Day we took part in some outdoor learning. We used maths skills to estimate, measure and calculate the height of trees in our school grounds.
