## Safer Internet Day Parents Cafe

Tuesday 11th February 2020 - 1.30pm to 2.30pm

Dear Parent/Carer,

On Tuesday 11<sup>th</sup> February, we will be taking part in the international 'Safer Internet Day'. The children will be working with three themes - What you see online, Online Behaviour and Online Risks.

In the afternoon, we will be hosting a 'Parents Café' in the Main Hall, to be led by Scott Lyons(*he has been an ICT Subject Leader and an E-safety Advisor at Norfolk County. Through his role as a Union Officer, he works closely with schools advising on social media awareness and mental health*). He will give a short talk about helping keep you and your family safe online followed by a chance for you to ask questions about any area of using the World Wide Web and the activities/ games your children make use of. *The session is ideal for Y5/6 especially those preparing for transition and the issues faced by pupils going up to High School e.g. mobile phones, using different social media platforms and 'secret' apps.* If you attend, your children can meet you in the hall so you can all learn together. Tea and Coffee (and squash for the children) will be provided.

If you wish to attend please return the slip below to help us ensure we have enough seating provided.

Kind Regards,

Mr Blenkin  
Computing Lead
