

YEAR FIVE

RE Week

This week, the children concluded their RE week, which began at the end of Spring 1, answering the question 'Is it fair?' During RE week, children have discussed fairness across the world, been introduced to philosophy and explored how Christians try to make the world a fairer place. The children concluded the week by completing a balanced argument to help answer the big question and explore what fairness means.

Food Tasting

We launched our new topic this week called 'Food for thought' by enjoying some food tasting in class. Each class were given a selection of healthy snacks to taste and were asked to review them afterwards. As part of the session, we discussed some of the great health benefits which can come from eating the snacks including the many vitamins and minerals they include!

Don't forget! **Sport Relief** **week!**

Sports relief week runs from Monday 9th to Friday 13th March. Children will be taking part in daily challenges and we would love to see you come and get involved in our whole school Golden Mile!

Pop Art!

As part of our new topic, Food for thought, the children learnt about artists involved in the pop art movement during the 1950's including Andy Warhol and Roy Lichtenstein. The children were given time to design their own pop art inspired picture using an item of food, which they will go on to use when we learn how to use the printing technique next week.
