

Year 5

So long Space...

Now that our topic on Intergalactic Explorers has drawn to an end, all the presentations we have been working so hard on are finished. Scan the QR codes to read some brilliant examples, showcasing all the amazing facts we have discovered.

Hello Hogwarts!

On Monday, we visited Hogwarts and what an amazing time we've had. When we got there, we were sorted into houses - keep your eyes open on our social media platforms and our website to see some photos over the next few days.

In potions class, we've been investigating how Harry can dissolve unicorn crystals (similar to sugar) quickly in his potion. We've investigated how stirring, changing the temperature of the water, changing the size of the crystals and the volume of water changes the speed at which the crystals dissolve. We've also been helping Harry to separate ingredients which he mistakenly poured into his cauldron using sieving, filtration and evaporation.

We've also been planning a poem based on Harry's 'Double Trouble' - hopefully we'll be able to share some with you soon!

Thank you

Thank you to everyone who attended parents evening. If you forgot to make or attend your appointment and would like to speak with your child's teacher, do get in touch.

We hope you all have a lovely half term break and look forward to seeing everyone again on 1st November

- Filled water bottle
- Warm coat
- Change of footwear
