

## Is it Fair?

This week has been one of our four Year 5 RE weeks. We have been discussing the topic of fairness and working towards answering the philosophical question 'Is the World a fair place?'

We have looked at what fairness means and the difference between equal and fair. We have researched historical events that have aimed to tackle inequalities and also explored what inequalities remain today.

We have discussed Christian beliefs about justice and compassion and written our own prayers.

At the time of printing, we are deep in debate and ready to write our balanced arguments. They should be amazing!!
