

YEAR FOUR

Meet the Neighbours!

For the first half of this half-term, our topic is all about looking at our local area. As part of this work, we have learnt how to read four figure grid references and all about classifying animals. This week, Year 4 took a trip to Scarning Water Meadow to complete some fieldwork answering three questions, 'What lives at Scarning Water Meadow'. The children were using observation skills to spot animals and plants that lived there. Some highlights included lots of frogs, different types of beetles and a range of different insects. The children then used Google Sheets to turn this data into bar graphs,.

Sports Day!

A really big thank you to all the parents who were able to make Sports Day last week. For those of you who weren't, photos will be coming to the Facebook page soon.

We were super proud of the children and the effort they put in to the races and it was great to see how much they cheered each other on!

A reminder..

Please send your child to school with a water bottle that is full of **water** as the weather is much warmer now.

Coming Soon!

Our final topic of the year will be **'Come Dine with Me'**

During this, the children will be designing and then using their cooking skills to make something!
