

Year 5

Topic...

Our topic for this half term has been *Earthquakes and Tsunamis*. We have learned why earthquakes happen and what damage they can cause. The children have enjoyed learning about tectonic plates and how these move. We discovered that earthquakes which happen under the sea can cause tsunamis. These are large waves which travel at tremendous speed.

This week we have been exploring artists who use water as a focus. The children have re-created their own versions of Hokusai's 'The Great Wave'. They have used primary colours to mix the colours on the picture and used these new colours to paint the picture.

Sports day - 24th June 2022

It was wonderful to be able to have sports day again this year. The children really enjoyed taking part. Well done everyone.

Reminder...

Please remember to send your child to school with a full and fresh water bottle each day and as the weather hots up, a hat. Learning is thirsty work!
