

YEAR FOUR

What have we been learning?

Year 4 have been working really hard this half term. We have been busy learning new songs on the Ukulele ready for our upcoming concert. In Science, we have 'thought like Scientists' and carried out experiments to find out which materials make good conductors or good insulators. By building electrical circuits we found that metal things are great conductors, and plastic and wood are good insulators.

Design and Technology

Thank you to everyone that returned their 'Client Questionnaire' - along with looking at examples, your answers will inform the designing of beautiful Christmas Lights. The children will also use their Science knowledge and build their own electrical circuits for their products, making the lanterns both 'functional' and 'pleasing to look at'. Look out for some stunning creations coming your way soon!

Weather!

Now the winter weather is here, please make sure that your child comes to school with a spare pair of outdoor shoes.

If your child does not have a change of footwear, they will not be allowed on the field.

Dates for your diary

Tuesday 6th December,
1.30pm - Year 3 and 4
Christmas Church Service.

Friday 9th December,
9.30 - 10.30am -
Family Christmas cafe.
An opportunity to create some beautiful Christmas crafts with your child.

Tuesday 13th December,
11.00 - 11.45am -
Ukulele Concert.
Come and see what the children have been learning in this half term's music lessons.
