

YEAR SIX

What can we learn about The Meaning of Life from the Great Philosophers?

Looking at philosophical viewpoints this week, we've been thinking about 'The Meaning of Life'.

We've been asking questions to identify

what we know and what are facts or opinions.

Using logical arguments, we've been able to explain our own viewpoints.

Scientific analysis and carefully observed shapes and structures in art.

To finish off our Fossil Hunters enquiry, we used line graphs and scatter graphs to show the variation in species of Darwins Galapagos Finches,

We also continued to look at fossils and create illustrations in our own style.

Year 6 Trip to see Matilda at Dereham Memorial Hall

What a wonderful experience we had. The performance was incredible and inspired many of the children to join the drama club when they go to High School.

A tale of triumph over adversity, we enjoyed the emotional rollercoaster which the cast took us on and showed our appreciation with rousing applause and giving thanks to organisers as we left.

Homework reminder

Set each Friday to be completed by the following Friday. This includes:

A short maths task

An English - Comprehension task

A short grammar task

Spelling Shed and TT Rockstars practice

Reading (at least 3x per week)

The homework set is important practice which is chosen to help consolidate learning which has taken place in school. We appreciate all the support you can give at home to help your child achieve their very best in Year 6.

Additional apps which can help your child to improve their fluency

Doodle maths

Mathletics

My Maths

These are either free or can be tried for 14 days. The children like the game style of these apps and love to see their progress. They can also select what they want to work on depending on where their strengths and weaknesses are. The children already have MY Maths log ins.
