

YEAR SIX

Dereham
Church Of England
Junior Academy

Electricity—Scientific Investigations

We completed our half term topic of Fossil Hunters by writing a non chronological reports about evolution and creatures from the past and slotted in our the launch week for our science topic on light.

The children learnt about fair testing and how to organise experiments to discover the effects of voltage on the brightness of bulbs and the volume of buzzers as well as the effect of mixing components and wiring systems.

Peter Pan at Dereham Memorial Hall

What a wonderful experience we had watching the amazing performance by the children of Neathered High School. A swashbuckling show with pirates, fairies and lots of sparkle. The characters were incredible and inspired many of our year 6 children to join the drama club when they go to High School.

The children showed their appreciation with rousing applause and gave thanks to organisers as we left.

Coming soon...

A short half term with a mock SATS week.

The launch of our new topic Macbeth

Year 6 Girls football starts Friday lunchtimes

A few final weeks of curriculum

the first week of SATS revision.

Homework reminders

The homework set is important practice which is chosen to help consolidate learning which has taken place in school. We appreciate all the support you can give at home to help your child achieve their very best in Year 6

A short maths task

An English - Comprehension task

A short grammar task

Spelling Shed and TT Rockstars practice

Reading (at least 3x per week)
