

YEAR FOUR

Maths

Since half term, we have continued to explore and work with fractions. We are beginning to explore decimal equivalents to fractions.

Times tables continue to be a big focus in year 4. We are currently learning the 6 times table. We will all be super ready for the multiplication check in the summer term. Keep going with all the fantastic practise that you do on TT rockstars.

English

In English, the children have been learning about poetry and how to write their own poems about a river. They have learned about metaphors and personification. We have used these in our poems to help create an image in the reader's mind.

Please support your child with completing homework each week. If you struggle to get online inform the class teacher and they can print some workbooks.

The following must be completed each week:

1. **Minimum** of 3 x 10/15 min sessions on TT Rockstars
2. **Minimum** of 3 x 10/15 min sessions on Spelling Shed
3. **Minimum** of 3 x 15 min reading sessions—diaries **MUST** be signed

Topic

This week, we have started our next topic. Water, Water Everywhere looks at the water cycle and each of the stages, solids, liquids and gases and we will be looking at the art work of Claude Monet and using watercolours to paint our own pictures in the same style.

We began the topic by looking at the British artist—Andy Goldsworthy. We used natural objects found in the school garden to create sculptures in the same style as his work.

Art work by Malorie class
