

# Year Three!

## Fantastic Forces!

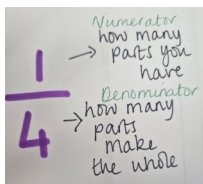

This half term, our topic is all about forces and magnets! So far, we have learned all about how forces are a push or a pull on an object by another object. We have just started learning about friction and are currently planning an investigation which will help us to learn which surfaces create more friction with a shoe! Next week, we will start to learn all about magnets, their poles and classify magnetic and non-magnetic objects.

Look at the Year 3 curriculum section of our website to find out more!

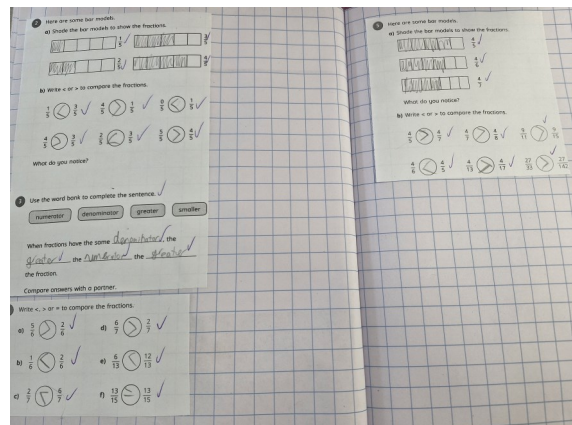

## Fractions!

In maths this half term, we are learning all about fractions.

So far, we have looked at what each part of a fraction represents and have been working on comparing the size of fractions!

Have a look at this fantastic work!

## **We LOVE Reading!**

In Year 3, all of our classes are reading or have just finished, 'The Beast and The Bethany'. It is one of the books on our DJA Reading Spine. Coming next... The Iron Man!

Dereham Church of England Junior Academy's

**Reading Spine**  
Fiction

Year 3

## Homework Each Week

The following must be completed each week:

1. Minimum of 3 x 15 min reading — diaries **MUST** be signed
2. 2 x 10/15 minutes on Times Table Rockstars
3. 2 x 10/15 minutes on Spelling Shed

**Thank you for your support with this!**
