

Year Three!

New Topic - Plant Power

The Norfolk Wildlife Trust visited school to launch our Plant Power topic. We learned about the parts of a plant, pollination, seed dispersal and hunted for different examples of plants.

In class, we have been investigating what plants need to grow well. We tried no water, no soil or no sunlight.

We also used lettuce, food colouring and water to prove that water travels up and through a plant.

Reading Homework

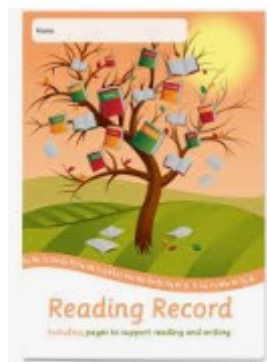

Read at least 3 times a week.

Adult to write in Reading Record.

This will be checked at school once a week.

Children are rewarded with House Points.

If you read 6 times or more you will be in the photo for that week's Collective Worship.
