

YEAR FOUR

Residential

The big thing this term are our residential visits to Horstead.

Group 1 went in Week 2 and Group 3 are there in Week 3 (as this is written)

The first group had a fantastic time and enjoyed fantastic weather too.

Both the teachers and instructors were proud of how well the children listened and the courage they showed in giving every activity a go, whether this was caving, climbing, canoeing or archery.

They all enjoyed making bread on an open fire and having hours to play outside in the evening when the evening meal was finished.

Hopefully Group 2 will have just as much fun on their visit!

Topic

We have been completing our Design and Technology project on using sewing skills to create pencil cases. We did whip and running stitches as well as learning how to sew buttons.

English and Maths.

In English we practiced writing exciting dialogue between two characters.

In Maths, we have been working on understanding decimals.
