

YEAR FOUR

Maths

We have learnt how to plot points on a grid and join the lines to draw a 2D shape. We have also practised translating (moving) shapes on a grid. The children have done a great job at this.

English

In English, the pupils have enjoyed writing a twisted version of the Fairy Tale Goldilocks and the Three Bears. Their writing has been amazing and we are extremely proud of them!

Transition:

Children will start their transition into year 5 Friday 18th July. They will find out who their new teachers are next week.

Topic

We will be finishing our sound and music unit next week called The Sound of Music! Next week, the children will be composing music to match their fairy tales that they wrote in English.

Religion and World Views

This week, we have been learning about Hinduism and answering the question, 'What does it mean to be a Hindu?' The children have really engaged in this. They have learnt about Holi Festival, the story behind it and the meanings behind the colour paints.

There will be no more swimming this year!
